

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session 2026-2027

Vision: Dream of where you want.	Mission: Means to achieve Vision
---	---

Program Educational Objectives of the program (PEO): (broad statements that describe the professional and career accomplishments)

PEO1	Preparation	P: Preparation	Pep-CL abbreviation pronounce as Pep-si-IL easy to recall
PEO2	Core Competence	E: Environment (Learning Environment)	
PEO3	Breadth	P: Professionalism	
PEO4	Professionalism	C: Core Competence	
PEO5	Learning Environment	L: Breadth (Learning in diverse areas)	

Program Outcomes (PO):

(statements that describe what a student should be able to do and know by the end of a program)

Keywords of POs:

Engineering knowledge, Problem analysis, Design/development of solutions, Conduct Investigations of Complex Problems, Engineering Tool Usage, The Engineer and The World, Ethics, Individual and Collaborative Team work, Communication, Project Management and Finance, Life-Long Learning

PSO Keywords: Cutting edge technologies, Research

“I am an engineer, and I know how to apply engineering knowledge to investigate, analyse and design solutions to complex problems using tools for entire world following all ethics in a collaborative way with proper management skills throughout my life.” to contribute to the development of cutting-edge technologies and Research.

Integrity: I will adhere to the Laboratory Code of Conduct and ethics in its entirety.

Name and Signature of Student and Date
(Signature and Date in Handwritten)

Nagar Yuwak Shikshan Sanstha's
Yeshwantrao Chavan College of Engineering (An Autonomous
Institution affiliated to Rashtrasant Tukadoji Maharaj Nagpur University) Hingna Road,
Wanadongri, Nagpur - 441 110

NAAC A++

Ph.: 07104-237919, 234623, 329249, 329250 Fax: 07104-232376, Website: www.ycce.edu Department of
Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering ,innovation, research, and industry–institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session	2024-25 (ODD)	Course Name	Web Technology Lab
Semester	3	Course Code	23CT1301
Roll No	10	Name of Student	Ekavira Vinod Dawale

Practical Number	Practical 1[A]
Course Outcome	1. Understand various internet technologies. 2. Design the web pages using HTML and CSS. 3. Implement the XML technology to store the data. 4. Develop the interactive web pages using JavaScript.
Aim	INTRODUCTION TO INTERNET
Problem Definition	Overview of internet, email, www, broadband, FTP
Theory (100 words)	The Internet is a global network that connects computers and devices worldwide using TCP/IP protocols. It provides various services such as E-mail, World Wide Web, file sharing, and online communication. E-mail is used to send and receive electronic messages over the Internet. The World Wide Web (WWW) is a collection of websites and web pages accessed through web browsers using URLs and HTTP.

Procedure and Execution (100 Words)	Step for Implementation: 1. Connect the computer to the Internet. 2. Open a web browser such as Chrome, Firefox, or Edge. 3. Enter a website URL in the address bar and open the website. 4. Open an E-mail service such as Gmail. 5. Compose and send an E-mail to understand electronic communication. 6. Observe different broadband connection types such as Fiber, Wi-Fi, DSL, Cable, and Satellite. 7. Study the use of FTP for transferring files between computers. 8. Understand how FTP uses separate connections for control and data transfer. 9. Compare the uses of Internet, WWW, E-mail, and FTP. 10. Record the observations and complete the practical. Code:

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering ,innovation, research, and industry–institute collaboration & Holistic, ethical and sustainable development for lifelong success.

	Output:
Output Analysis	
Link of student Github profile where lab assignment has been uploaded	dawaleekvira/Web_Technology
Conclusion	In this practical, we studied the basic concepts of the Internet and its major services such as E-mail, WWW, Broadband, and FTP. We understood how the Internet connects devices globally, how websites are accessed through web browsers, how E-mail is used for communication, and how FTP is used for file transfer. We also learned about different broadband technologies used for high-speed Internet access.
