

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session 2026-2027

Vision: Dream of where you want.	Mission: Means to achieve Vision
---	---

Program Educational Objectives of the program (PEO): (broad statements that describe the professional and career accomplishments)

PEO1	Preparation	P: Preparation	Pep-CL abbreviation pronounce as Pep-si-IL easy to recall
PEO2	Core Competence	E: Environment (Learning Environment)	
PEO3	Breadth	P: Professionalism	
PEO4	Professionalism	C: Core Competence	
PEO5	Learning Environment	L: Breadth (Learning in diverse areas)	

Program Outcomes (PO):

(statements that describe what a student should be able to do and know by the end of a program)

Keywords of POs:

Engineering knowledge, Problem analysis, Design/development of solutions, Conduct Investigations of Complex Problems, Engineering Tool Usage, The Engineer and The World, Ethics, Individual and Collaborative Team work, Communication, Project Management and Finance, Life-Long Learning

PSO Keywords: Cutting edge technologies, Research

“I am an engineer, and I know how to apply engineering knowledge to investigate, analyse and design solutions to complex problems using tools for entire world following all ethics in a collaborative way with proper management skills throughout my life.” to contribute to the development of cutting-edge technologies and Research.

Integrity: I will adhere to the Laboratory Code of Conduct and ethics in its entirety.

Name and Signature of Student and Date
(Signature and Date in Handwritten)

Nagar Yuwak Shikshan Sanstha's
Yeshwantrao Chavan College of Engineering (An Autonomous
Institution affiliated to Rashtrasant Tukadoji Maharaj Nagpur University) Hingna Road,
Wanadongri, Nagpur - 441 110

NAAC A++

Ph.: 07104-237919, 234623, 329249, 329250 Fax: 07104-232376, Website: www.ycce.edu Department of
Computer Technology

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering ,innovation, research, and industry-institute collaboration & Holistic, ethical and sustainable development for lifelong success.

Session	2024-25 (ODD)	Course Name	Web Technology Lab
Semester	3	Course Code	23CT1301
Roll No	10	Name of Student	Ekavira Vinod Dawale

Practical Number	Practical 1[B]
Course Outcome	1. Understand various internet technologies. 2. Design the web pages using HTML and CSS. 3. Implement the XML technology to store the data. 4. Develop the interactive web pages using JavaScript.
Aim	Study HTML Tags and to implement basic Web page.
Problem Definition	Create A Web Page Using Various HTML Tags which displays Simple Text Welcome To html Web Page.
Theory (100 words)	● HTML stands for HyperTextMarkup Language. It creates a complete website structure of web pages. ● HTML is a combination of Hypertext and Markup language. Hypertext defines the link between the web ● pages and markup language defines the text document within the tag. ● This HTML Tutorial provides basic to advanced concepts for beginners and professionals. ● HTML is a markup language used by the browser to manipulate text, images, and other content, in order to ● display it in the required format. HTML was created by Tim Berners-Lee in 1991. The first-ever version of ● HTML was HTML 1.0, but the first standard version was HTML 2.0, published in 1995.

Procedure and
Execution (100

Words)

Step for Implementation:

1. Open Notepad or VS Code.
 2. Create a new file and save it as index.html.
 3. Start the HTML document using the declaration.
 4. Use the tag as the main container of the webpage.
 5. Add the section and give the page a title using the tag.
 6. Inside the <body>, use heading tags such as <h1> and <h2>.
 7. Use the <p> tag to display normal text.
 8. Use tags like , <i>, and <u> to show bold, italic and underlined text.
 9. Save the file.
 10. Open index.html in any web browser to see the result.
- <!--EndFragment--> </body> </html>

Code:

```
<!DOCTYPE html>
<html>

<!-- Head Section content -->
<head>
<!-- Page title -->
<title>Basic Web Page</title>
</head>

<!-- Body Section content -->
<body>
<!-- Used to display heading content -->
<h1>Welcome to Web Technology Lab</h1>

<!-- Used to display paragraph content -->
<p>A Computer Technology for Web Developer</p>

</body>
</html>
```

Vision Statement of the Department.

To be a preferred hub for nurturing computer engineering aspirants through innovative, ethical, value-based technical education, impactful research, and industry collaboration, to become successful professionals contributing for the betterment of society.

Mission Statement of the Department.

To nurture computer engineering professionals by offering Dynamic learning environment that encourages problem-solving using emerging technology, National Education Policy aligned evidence-based technical education, fostering ,innovation, research, and industry–institute collaboration & Holistic, ethical and sustainable development for lifelong success.

	Output: 
Output Analysis	The webpage was successfully displayed in the browser. The tags were used to create headings, while the tag was used for normal paragraphs. The <i><u>and tags changed the appearance of the text into bold, italic and underlined formats. This shows how different HTML tags can be combined to create a basic webpage.</u></i>
Link of student Github profile where lab assignment has been uploaded	dawaleekvira/Web_Technology
Conclusion	The basic HTML tags were studied and implemented successfully. A simple Web Page containing headings, paragraphs and formatted text was created. This practical helped in understanding how HTML provides the basic structure and content of a web page.
